## 20. Baseball Scheduling Rounds

Individuals must submit, along with their field requests, the following:

- To be eligible to participate in the 1st Round and/or the 2nd Round of Scheduling, the person submitting the request for fields, times, and dates must be a Bath Township resident.
- The resident, along with the submitting of their field requests, must also submit the number of teams in that resident's League or Organization which are requesting field use.
- The resident must also submit the prior year's team roster of players along with the names and addresses of each player from each team in the League or Organization.
- If a conflict of fields, times, and dates occurs this will put into effect the 1st and 2nd Rounds of Scheduling protocol.

For convenience purposes for submitting field requests for the upcoming year, Bath Township will assume that all teams from each League and/or Organization will be comprised of a standard number of 12 players. If a team is made up of more or less than 12 players, it does not matter for the Scheduling Rounds. To qualify to be placed into the 1st Round of Scheduling, each team requesting fields, times, and dates must have at least forty-one percent (41%) of that team roster consisting of Bath Township residents. This means five (5) or more players from each team must be Bath Township residents.

If a team in any League or Organization consists of less than the forty-one percent (41%) than that team will qualify for the 2nd Round of Scheduling.

## 21. FIRST (1st) ROUND OF SCHEDULING

Once all of the teams consisting of forty-one percent (41%) Bath Residents from each different League or Organization have qualified for the 1st Round, take the number of teams that qualify from each League or Organization and separate them by the field requests. Then take the total number of teams from all of the Leagues or Organizations requesting the same date and time for the same field and add them together. Use that number as a common denominator for the 1st Round of Scheduling. Then take the teams from each different League or Organization requesting the same fields, time, and dates and divide them by the common denominator. This number equals the percentage of the total number of times each different League or Organization fields, time, and dates requested will be met and approved.

### Example- League A and League B:

Each League has requested Field 2 for 4:30 p.m. for the same 120 days of summer. League A has 5 teams, 2 of which meet the 41% rule. League B has 5 teams and all 5 meet the 41% rule. Take League A's 2 teams and League B's 5

teams, add them together to get 7 teams. The number 7 will then be used as the common denominator.

Then take League A's 2 teams and divide them by the common denominator of 7. League A will qualify for 29% of their 120 days requested. Then take League B's 5 teams and divide them by the common denominator of 7. League B will qualify for 71% for their 120 days requested.

League A will be scheduled for 35 days out of the 120 days requested.  
League B will be scheduled for 85 days out of the 120 days requested.

All Leagues or Organizations, after receiving their approved schedules have fifteen (15) days to apply for the alternate dates or times for field usages that does not conflict with schedules from the 1st Round.

If a conflict was to occur between League A and League B in which all teams from each League or Organization meet the forty-one percent (41%) rule then the following schedule would go into effect. League A and League B would be given a schedule where every other week their schedules would alternate for fields requested.

## 22. SECOND (2nd) ROUND OF SCHEDULING

The 2nd Round of Scheduling is for all Bath Township residents whose Leagues or Organizations do not meet the forty-one percent (41%) of Bath Residents for each team. The resident submitting a schedule of dates, time, and fields will be approved for those dates, times, and fields that do not conflict with the 1st Round of Scheduling.

If in the 2nd Round there is more than one League or Organization that is in conflict with another League or Organization then the League or Organization with the greatest percentage of players from Bath Township receives the priority in scheduling.

If conflicts occur for fields, dates, and times schedules between different Leagues or Organizations that have the same percentage of Bath Township residents then the common denominator of those Leagues or Organizations will be used to create the schedules for the 2nd Round.

If two or more Leagues or Organizations have the same number of teams in each League and the same percentage of Bath Township residents on each team then the schedules will alternate weekly.

## 23. THIRD (3RD) ROUND SCHEDULES

The 3rd Round of Scheduling is for all non-Bath Township residents. Upon receiving their request for fields, times, and dates schedules will be approved and awarded for fields, times, and dates that do not conflict with the 1st and 2nd Rounds of Scheduling.
